

Glauber Marques

FULL-STACK DEVELOPER

1128 Southview Drive, Winkler Mb | (431)336-2546

LinkedIn: <https://www.linkedin.com/in/glaubervilane/>

PROFESSIONAL SUMMARY

Astute professional highly skilled in application development testing and debugging. Talented individual fluent in C#.NET and JavaScript. Enthusiastic technical professional with complete understanding of entire software development lifecycle. Highly trained in back end technologies using the C# language and developing applications in .NET and its variants as well as going deeper into the database, especially Microsoft SQL Server and front-end technologies such as HTML, CSS, and JavaScript using Bootstrap and JQuery and React Js.

- Working on implementing design, development, deployment, and Integration using C# and ASP.NET, and JavaScript on daily basis, writing high quality, performant, secure and maintainable code. Experience using web technologies such as HTML/CSS, JavaScript, and React.js
- Performing complex application programming activities in my routine, designing the application's technical infrastructure using Microsoft Technologies using agile methodologies. Strong knowledge and understanding of principles related to Object-Oriented Analysis and Design.
- Creating production-quality web applications written in C# using Razor, .NET Framework, and .NET Core as well as frontends built with CSS libraries like Bootstrap, and JQuery, communications handled using an MSSQL Server database.
- Implemented a partnership with the company's HR department to create a new Human Resources system, developing custom and integration programs, SQL reports, queries, and other data extracts from the Employee Database.
- Creating and updating reports into the Report Builder platform connected to the M2M ERP. Accountable to all project teams in meeting timeline (sometimes-remote using Microsoft Planner), scope, and expectations.
 - Synchronizing and updating the database on the Microsoft FoxPro platform migrating to the SQL Server platform keeping the data integrity and consistency.

SKILLS

-OBJECT-ORIENTED PROGRAMMING (OPP)

-ASP.NET

-MYSQL

-JAVASCRIPT

-MICROSOFT PLANNER

-HTML

-JQUERY

-CI/CD

-C#/.NET

- MICROSOFT SQL SERVER

-AGILE METHODOLOGIES

-REACT JS

-VISUAL STUDIO CODE IDE

-CSS

-BOOTSTRAP

-WORDPRESS

WORK HISTORY

APPLICATION DEVELOPER | [LODE KING INDUSTRY](#) | NOV 2020 - PRESENT

With knowledge of .Net, support Made2Manage applications and databases. Create and implement code for new and existing applications, provide development, reporting, and data analytics assistance, and support new and existing applications. Applying .Net Core, JavaScript (Node JS & React JS) development technologies.

SOME KEY WORK

- Systems architecture in ASP.NET and use of MVC and DDD in most projects
- Deployment using GIT and hosted into the intern server
- Manage SQL Server databases and interact with FoxPro databases
- Creation and development of inventory application
- Creation of a Human Resource application from scratch
- Develop and deploy web interfaces including layout design and concept for each new application.
- Using Microsoft Planner and Kanban to control tasks in an agile environment.
- Code database-driven application using SQL server; test the application in order to address and fix database/App interoperability errors.
- Develop and deploy web interfaces including layout design and concept.
- Implementation of new features and improvements using agile methodologies

DIGITAL MEDIA DESIGN INDEPENDENT | [IMPROVE4WEB](#) | MARCH 2019 – NOV 2020

Helping clients to develop digital media solutions such as web pages to help build and support their businesses. Focused on web design, development, marketing, and branding solutions for a variety of clients in Manitoba and across Canada as well as in Brazil.

- Creating logos, websites using WordPress and PHP, and internet content in order to provide the best experience for clients and their user base
- Providing attractive designs, responsive content, and interactive features
- Continuously work with clients to establish and maintain value-based ideas using feedback to achieve mutual satisfaction
- PHP and front-end languages such as HTML, CSS, and JavaScript were used to create websites on the WordPress platform

SALES MANAGER | [EMS S/A](#) | MARCH 2012 – JUN 2017

EMS S/A Pharmaceuticals is a Brazilian leader in the manufacturing and commercialization of medicines in Brazil and the second largest in Latin America. As a Sales Manager, this experience included the following responsibilities:

- Creating logos, websites using WordPress and PHP, and internet content in order to provide the best experience for clients and their user base
- Provided training and mentoring to new employees, assisting them in the process of achieving team goals
- Continuously work with clients to establish and maintain value-based ideas using feedback to achieve mutual satisfaction
- Delivered high impact territory management, sales strategies, and client relationship building for a leading pharmaceutical company with a broad product mix
- Engaged customers to establish and maintain value-based ideas using negotiation strategies to achieve mutual satisfaction

SALES REPRESENTATIVE | [ZODIAC S/A](#) | AUGUST 2009 – JAN 2012

Worked extensively with one of the world's largest personal care and drug companies to develop and implement sales strategies to achieve corporate targets. This position provided the following support:

- Gathered feedback from clients in order to understand their needs and troubleshoot any problems that occurred or that could occur
- Provided timely feedback to management and team members, including constructive and critical feedback

- Maintained excellent client retention rates by providing highly accessible services coupled with expert industry knowledge

EDUCATION

C# PROGRAMMING USING .NET CORE, INFORMATION TECHNOLOGY | JAN 2021 TO SEPTEMBER 2021 | [UNIVERSITY OF WASHINGTON](#)

The use of C# object-oriented programming language constructs to create applications using .NET Core around of techniques for building and consuming .NET Standard libraries as well as creating GUI (graphical user interface) applications using the .NET Framework and learning how to access data via LINQ and lambda statements.

NEW MEDIA DESIGN CERTIFICATE | JAN 2018 TO FEBRUARY 2019 | [LOUIS RIEL ARTS & TECHNOLOGY CENTRE](#)

Web programming languages & technologies (JavaScript, Flash, ActionScript, HTML, CSS, PHP and SQL) Developing and managing a website project for a business client (work practicum) Effective business marketing through social media and SEO, Communication & employability skills.

MBA – PEOPLE MANAGEMENT | MAY 2009 TO JUNE 2011 | [UNIVERSITY OF AMAZONAS / BRAZIL](#)

Management and mentoring practices, introduction to Human Resources and training tools, use of project management tools under the PMI strategies.

BACHELOR DEGREE ACCOUNTING SCIENCE | FEV 2005 TO MARCH 2009 | [FEDERAL UNIVERSITY OF PARAIBA / BRAZIL](#)

Accounting and financial practices, application and use of financial statements, bookkeeping, financial management, auditing, accounting, and financial controller were covered.

PROJECTS

REAL STATE MANAGER APP /

[HTTPS://GITHUB.COM/GVFMARQUES/REALSTATEMANAGERAPP](https://github.com/GVFMARQUES/REALSTATEMANAGERAPP)

Application using ASP.NET MVC architecture in layers divided between business rules, data integration and MVC framework

API CATALOG OF GAMES

[HTTPS://GITHUB.COM/GVFMARQUES/APICATALOGJOGOS](https://github.com/GVFMARQUES/APICATALOGJOGOS)

Application using ASP.NET MVC architecture integrating View models under the business rules, data integration and MVC framework

NETFLIX CLONE APPLICATION

[HTTPS://GITHUB.COM/GVFMARQUES/NETFLIXCLONE](https://github.com/GVFMARQUES/NETFLIXCLONE)

This project is a Netflix clone to the front-end using React JS and NPM tools. The goal is to deliver all front-end functionalities as it works into the Netflix platform in real life. It Helps choosing movies from different stream platforms with help API

PROJECT REACT CALCULATOR

[HTTPS://GITHUB.COM/GVFMARQUES/CALCULATORRECTPROJECT](https://github.com/GVFMARQUES/CALCULATORRECTPROJECT)

Project Calculator in React JS using React-Bootstrap and Testing Library implementing simple calculator operations under the use of unit tests to ensure the results integrity.

INVENTORY APPLICATION LODE KING INDUSTRY'S (INTELLECTUAL PROPERTY)

Application using ASP.NET created from an application running on FoxPro platform, FoxPro database integration for SQL server platform, backend and frontend structure assembly.

HUMAN RESOURCE APPLICATION LODE KING INDUSTRY'S (INTELLECTUAL PROPERTY)

Creation of an application for the human resources department from scratch using ASP.NET Core already using version 6.0 of .NET, generation of SQL database populated with data stored in FoxPro database, implementation of CRUD operations for generating reports, adding, editing, and removing employee's data.

REPORTS UPGRADE TO NEW VERSION OF MADE2MANAGE ERP USING REPORT BUILDER LODE KING INDUSTRY'S (INTELLECTUAL PROPERTY)

Update of reports generated for the purchasing, sales, marketing, and accounting sectors using Microsoft's Report Builder to generate and edit report layouts and structures in connection with the SQL Server database, making the necessary adjustments to the stored procedures.

COMMUNITY INVOLVEMENT

VOLUNTEER WEB DESIGNER & MEMBER OF THE BOARD OF DIRECTORS WINNIPEG BRAZILIAN ASSOCIATION / WINNIPEG, MB / 2018 – PRESENT

Current Member of the Board of the Directors, while also providing web support such as creating, updating, and maintaining the association's website to ensure content is accurate and relevant.
